

Data Analyst

**EXTERNAL Application Form
Part 2**

Name _____

The following questions will give you the opportunity to outline your knowledge and experience in relation to key elements of role.

Please provide details of your personal contribution in relation to each question, including the outcome of your actions.

Your application will also be assessed against the required behaviours for the role, including your ability to communicate effectively in a clear and concise way.

This information will be used during the shortlisting process to identify candidates for progression to the next stage.

Skills Knowledge and Experience

Please provide an overview of the skills, knowledge and experience you will bring to the Data Analyst role.

(Max up to 500 words)

Confidence and Resilience

Please summarise a piece of work you have produced within a significant time constraint, explaining your approach to time/task focus and managing prioritisation of competing demands.

(Max up to 500 words)

Planning and Implementing/Working with Others

Please explain how you planned and implemented a complex piece of work, including your approach to collaboration with several stakeholders and the identification/management of risk.

(Max up to 500 words)

Openness to Change

Please provide an example of how you have used data as an evidence-based approach to influence change in strategic/operational planning.

(Max up to 500 words)
